Clerk  
STATE OF MISSISSIPPI  
COUNTY OF HANCOCK

I, C. J. Ladner, Clerk of the Board of Supervisors within and for the County of Hancock, in the State of Mississippi, do hereby certify that the foregoing pages, constitute a full, true, and correct copy of the proceedings had by said Board at a meeting thereof, held on the 6th day of February, 1962, insofar as the same relate to the issuance of \$200,000 Road and Bridge Bonds of Supervisor's District No. 5 of Hancock County, Mississippi.

## Katcha Ketchum

We keep talking about fresh water fish coming into their own with warmer weather coming our way; only because salt water fish are not biting at this particular time. The reason is we believe that fresh water is still out in the Bay. With the change of tides, salt water should be good up Jordan River and at Grassy Point and along the shore lines on the other side of the Bay soon.

Green trout were caught up Jordan River over the weekend both by trolling and with surface baits.

Dr. Bertucci and August Rauter caught the limit Saturday of green trout by trolling.

Jerome Carver also caught his

interest that bonds of said District be issued as hereinafter set forth:

Now, therefore, be it resolved by the Board of Supervisors of Hancock County, Mississippi, as follows:

SECTION 1. That the Board of Supervisors of Hancock County, Mississippi, hereby declares its intention to issue bonds of Supervisor's District No. 5 of said County in the maximum principal amount of Two Hundred Thousand Dollars (\$200,000) to raise money for the purpose of constructing, reconstructing, and repairing roads, highways, and bridges, and acquiring the necessary land, including land for road building materials, in said District.

SECTION 2. That the said bonds in the amount and for the purpose aforesaid will be issued at a meeting of said Board of Supervisors to be held at 10 o'clock a.m., on Tuesday, the 13 day of March, 1962, or at some meeting held subsequent thereto.

If twenty per centum (20%) of the qualified electors of said District shall file a written protest against the issuance of said bonds on or before the aforesaid date and hour, then an election on the question of the issuance of said bonds shall be called and held as provided by law. If no such protest be filed, then the said bonds will be issued without an election on the question of the issuance thereof.

SECTION 3. That this resolution shall be published once a week for at least (3) three consecutive weeks in Hancock County Eagle and The Sea Coast Echo, newspapers published and of general circulation in Hancock County, Mississippi, and which are qualified newspapers under the provisions of Chapter 427, Laws of Mississippi, 1948. The first publication of this resolution shall be made not less than twenty-one (21) days prior to the aforesaid date and the last publication shall be made not more than seven (7) days prior to the aforesaid date.

SECTION 4. That the Clerk of this Board shall be and is hereby directed to procure from the publisher of the aforesaid newspapers the customary proof of the publications of this resolution and to have the same before this Board on the date and hour specified in Section 2 hereof.

Supervisor Lavingshouse seconded the motion to adopt the foregoing resolution, and the question being put to a roll call vote, the result was as follows:

Supervisor Russ voted Aye, Supervisor Frierson voted Aye, Supervisor Lavingshouse voted Aye, Supervisor Nease voted Aye, Supervisor Hubbard voted Aye.

The motion having received the affirmative vote of all the members of the Board present, the President declared the motion carried and the resolution adopted, this the 6th day of February, 1962.

## Speaking of Mississippi

Speaking of Mississippi, Dick Mervin, III, while quail hunting during the season killed a 3-point buck deer using a 30 gauge shot gun. I was Dick's first deer and he was not feeling from the season. Dick was hunting with his dad, Pat Mervin, and Eddie McCarr, of Washington. Was Dick happy?

Paul Lisy of Egypt, Minnesota, is down at the Bay on his usual vacation. Paul will be down for about 2 weeks and will do a bit of fishing with old friends of long standing while here. Paul likes any kind of fishing and will no doubt get his share.

SOMETHING WORTH KNOWING

Just found out that Ray Kidd's restaurant on Ulman Avenue has raw oysters on the half shell. Ray, himself, opens the oysters which are delicious. A few oysters with hot sauce or hot radish

are hard to beat and are an ideal entree to a real meal. The oysters come from Louisiana and are at their best at this time of the year, salty.

The Flamingo Restaurant and Bar on Highway 90, operated by Mr. and Mrs. Bill Williams, has been recently renovated and is an ideal place to dine. Bill, on off-time, loves to fish. Hope you catch up, Bill.

Bill Pinson and his wife of Bayou Caddy Fishing Camp, are busy getting their camp ready for the coming fishing season. Bill has good skills and bait for sale. For those who don't know fishing in this area is usually good

## Family Robinson

Symbolic—  
that's what I call  
this picture!

### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

The Robinsons don't go to my church—they belong to another.

But I'll tell you there are no finer people in our town than Cliff and Berta, and their kids, Polly and Joe. They're good neighbors . . . friends who'd stick by you in trouble . . . people with standards, ideals.

And other folks around town feel the same way about the Robinsons. Tradepeople say it's a pleasure to do business with them. Community leaders admire the way they pitch in and help.

So I say this picture is symbolic. For if we'd stop and figure WHAT MAKES FINE PEOPLE LIKE THE ROBINSONS . . . why this whole town would be in church next Sunday!

# NETT TO ASK THORITY FOR LE OF SHELLS

JACKSON, Miss. — Gov. Ross Barnett plans to ask the legislature to give the Marine Conservation Commission authority to harvest oyster shells from Mississippi Sound.

Barnett said he would request action in the wake of a Supreme Court decision ruling the commission had no authority now because the old law was carried forward when a legislation bill passed the legislature two years ago.

The Supreme Court Monday ruled out a contract between the commission and Jahncke Service Co. of New Orleans under which the state paid 12 cents per cubic yard to the state for shells.

# BUSINESS RISES 9 DISTRICTS

STATE COLLEGE, Miss. — Nine business districts reported a slight increase in December 1960, but seven slipped to a lower level.

The monthly "Mississippi Business Review," a publication of the Bureau of Business and Economic Research at Mississippi State University, said the following districts reported gains:

Box-Gulfport, 10 percent; Columbia, 19 percent; Greenwood, 8 percent; Jackson, 5 percent; Tomb, 6 percent; Meridian and this Lake, 1 percent; Tupelo, 4 percent, and Vicksburg, 5 percent.

Those reporting lower levels were: Arkdale, down 8 percent; Columbus, 3 percent; Greenville, 1 percent; Hattiesburg, 5 percent; Laurel, 10 percent; Natchez, 4 percent, and Pascagoula, 1 percent.

# Gift Starts Fund Boys' Town Farm Tools

Few of the citizens of the Delta, and surrounding areas, even know the boys of Magnolia Boys' Town farm tools. This past year, the boys at the home made a thousand bushels of corn. This was used by the home to feed the eighty-one head of hogs and also, the cattle owned by the home. Plans are underway by a group of interested friends and businessmen to see that the boys have the equipment to really get into the farming operation and help the boys to help support themselves.

Anytime you can help a person to help himself, this is the best kind of charity. All the crops as well as gardens raised by the home in the past was cultivated by mules and naturally this limited the number of acres the home could farm.

The cost of a new two row cultivator, including planters, fertilizer distributors, disks and 14-inch turning plows with a tractor will be \$1,939.00 and a \$50 contribution has started a drive for funds with which to purchase this farming equipment, it was announced by Dr. Henry Bucklew.

This drive will last during the month of February. We have listed the \$50 contribution from a special friend and all other contributions will be listed and announced.

Make all check payable to Magnolia Boys' Town and Mark Farm Account.

Let's give the boys at Magnolia Boys' Town the tools to help raise the food they need. Believe me, it is a most worthy work and all gifts will be listed in the paper.

W. C. Smith, President, Standard Oil Company (Kentucky), is pictured with architect's drawing of section of his company's \$125 million refinery now under construction at Pascagoula, Mississippi's biggest industrial project to date.

# Mississippi on the march... Oil and Gas

Mississippi's economic progress is getting a tremendous boost right now from the \$125 million Standard Oil is spending to build a 100,000-barrel-a-day refinery at Pascagoula. Construction payroll alone will total \$40 million over the next 18 months. This economic boost will be continuing and far-reaching when the giant plant goes into production.

Already, one and all form one of Mississippi's "first citizen" industries. Other refineries are operating at Yazoo City, Sandersville and Black Creek in Lamar County. Over 13,000 are employed in all areas of the industry with payroll totaling more than \$50 million a year.

Oil and gas represent 91% of the State's total mineral production value and last year these industries spent more than \$80 million in Mississippi for supplies and equipment, \$90 million for exploration, and royalty, lease and rental payments totaled over \$38 million.

Wherever Mississippi is on the march, you'll find the telephone helping to speed plans or production. And to make sure telephone service will be ready for Mississippi's growing needs, your telephone company is putting a total of over \$70 million in new construction during the three-year period, 1961-63.

Mississippi on the march attracts more investment capital — creates new jobs and payrolls. This is true because the phone needs of business, industry, farms and homes of today and tomorrow.

**Prospects Appear Favorable for Livestock Industry in 1962**  
Mississippi's thriving livestock industry, an increasingly big factor in the agricultural progress and general prosperity, will have problems during 1962, but the general outlook appears favorable. Two current trends in the livestock industry—orderly, well-spaced marketings of livestock and development of meat-type animals—are significant in the production pattern. Americans are big meat eaters and there is no reason to think that per capita consumption will not continue to rise as the population increases. Mississippi's income from livestock has steadily increased, and progress in recent years has been impressive. Mississippi ranks second among all 11 Southeastern states in total number of cattle.

**PLAN RELEASING OF COTTON ACREAGE**  
JACKSON, Miss.—Releasing of cotton acreage that will not be planted for reapportionment to other farmers who will plant it can be of economic importance during 1962 and can help to preserve allotment bases for future years.

This conclusion was reached at a meeting sponsored by the Mississippi Farm Bureau Federation in Jackson Monday, (Feb. 2).

A "plant or release" statewide promotion effort was organized at the meeting, and county-wide efforts were proposed.

Boswell Stevens, president of the Miss. Farm Bureau, presided.

B. F. Smith, of Leland, chairman of the Miss. Farm Bureau cotton committee, said that during 1961 there were 109,599 acres of allocated cotton acreage that was not planted. This represents a loss of \$17 million to the economy of the state, he said. During 1960, there were 185,862 acres released, and during 1961 there were 173,058 acres released.

C. W. Sullivan, state administrator of the Agricultural Stabilization and Conservation agency, stated that individual farm allotments are based on three years, 1960, 1961 and 1962. However, he pointed out that county and state allotments are based on five-year history, for 1957, 1958, 1959, 1960 and 1961. In allotments for the 1963 crop, the year 1959 will be left out for the first time in determining individual farm allotments, he said. Some 14,000 farms which released acres in 1960 and 1961 must plant some cotton in 1962 or they will lose their acreage allotment, he pointed out. To preserve the county's history, at least 75 percent of acreage allotted must be "planted or released," he said. Last year about 63,000 acres came back to the state ASC committee for reallocation to farmers in counties other than the county in which it was originally allotted.

The 30 people attending represented Farm Bureau, Extension Service, Vocational Agriculture, Staple Cotton Association, and ginners and compress interests.

County Farm Bureau presidents, County Extension agents, and ASC county office managers are being advised of the promotion program. County meetings are being arranged as an educational activity to acquaint other groups with the problem and to solicit their support. Support will be sought from Chambers of Commerce, bankers, Farmers Home Administration, cotton merchants, cooperatives, Production Credit Association, oil mills, school officials, representatives of newspaper, radio and television, and where applicable Delta Council and Staple Cotton Association.
